

*"If you can imagine it, Nadco will make it stick.®"*

## **LM100**

*LM100 is a super clear PET for integral cards or labels on press.*

This 1 mil laminate has a premium special high gloss top coating for laser, flexo and thermal transfer printing. This topcoat is used where ultimate clarity and gloss is a must and will still accept variable data printed. LM100 is a popular face laminate when high color print is used. This laminate features a general purpose permanent, has good wet out and will make your print look great.
