

Tape Dispenser Assembly

Tools you will need:

8" Crescent wrench

5/32" Allen wrench

Contents:

Tape Dispenser and Belt.

Step 1: Front wheel will be folded up.

Step 2: Push front wheel forward.

Step 3: Use Crescent wrench to tighten down bolts.

Step 4: Place dispenser upside down.

Step 5: Push lever forward to remove center roller.

Step 6: Remove cap, spring and core plug.

Step 7: Place tape roll on second plug.

Step 8: Reassemble - put plug, spring and cap back on.

Tape should dispense toward front wheel.

Step 9: Put center roller back on and push levers down.

Step 10: Remove liner.

Step 11: Tape liner to top roller. Place exposed vinyl in front of bottom roller.

Step 12: Attached belt.

Step 13: Slide rewind up and tighten screws.

Step 14: Turn upright and apply tape to floor.

Note: Keep tape centered on roller.
Watch wind up for too much slack.

To remove waste:

Step 1: Remove pin.

Step 2: Use Allen wrench to loosen core and remove.
